Rotary 5 Quays Walk

Since 2010 Rotary Club of Poole Bay has worked with the Borough of Poole to survey and map the rights of way across the town centre and Old Town areas. As part of the project and to promote walking in Poole the club has helped to prepare and produce this walking map of Poole.

The Rotary 5 Quays walk of Poole is a suggested route featuring Poole's attractions, many along the waterside. Try it out, it will take you around an hour and a half.

The route will change in future as redevelopment of the waterside between the two bridges takes place. Please use it to explore Poole's town centre, its parks, sculpture and the historic areas of Old Town and the Quay.

The Cockle Trail

Starting from the Fish Shambles on the Quay and ending up outside of the Poole Museum this short walk traces the town's rich historical heritage. There are numbered cockle plaques set into the pavements along the way, many of which link to text pieces in the Cockle Trail leaflet, which is available for a small charge from the tourism office and the museum shop.

Note: The E9 European Long Distance footpath (Cabo de São Vicente, Portugal to Narva-Jõesuu, Estonia) alternative route and the Round Harbour route both pass along the quay, around Baiter & Poole Parks. For further details on the Poole Harbour Trails visit www.pooleharbourtrails.org.uk
