Purpose of this profile

The ward profiles provide an ongoing information update on social and economic data for all of Poole's sixteen wards. Each profile compares against average Poole figures. As far as possible the statistical information within this document is the most recently available at the time. Data sources are identified for each chart and table.

These profiles use data from the 2011 Census however more in-depth Census Ward profiles were produced by the Corporate Research Team in August 2013. Please go to www.boroughofpoole.com/2011census for more information on the 2011 Census.

Ward boundaries were changed slightly in 2014. These profiles are based on boundaries prior to this date. New profiles will be prepared for the new ward boundaries in due course.

Overview

Creekmoor Ward is located in the west of Poole and shares boundaries with Broadstone, Canford Heath West, Oakdale and Hamworthy West. Residential areas are located in the north, west and central areas of the ward, with an industrial/retail area in the east. Upton House and Upton Country Park are located in the south and the Castleman Trailway runs from Upton Country Park, through Creekmoor to Merley. There is no dentist located within the ward boundary, or within 250 metres of the boundary in neighbouring wards. However there is a dental repair service that has an office on Marshal Road.

Political Representation

Creekmoor Ward is represented by three Conservative Party councillors – Les Burden, Judy Butt and John Rampton.

All three were last elected on May 7, 2015. The Ward's electorate was 7,379 and turnout was 63.0%, which was the highest for any ward in Poole.

Mosaic Lifestyles

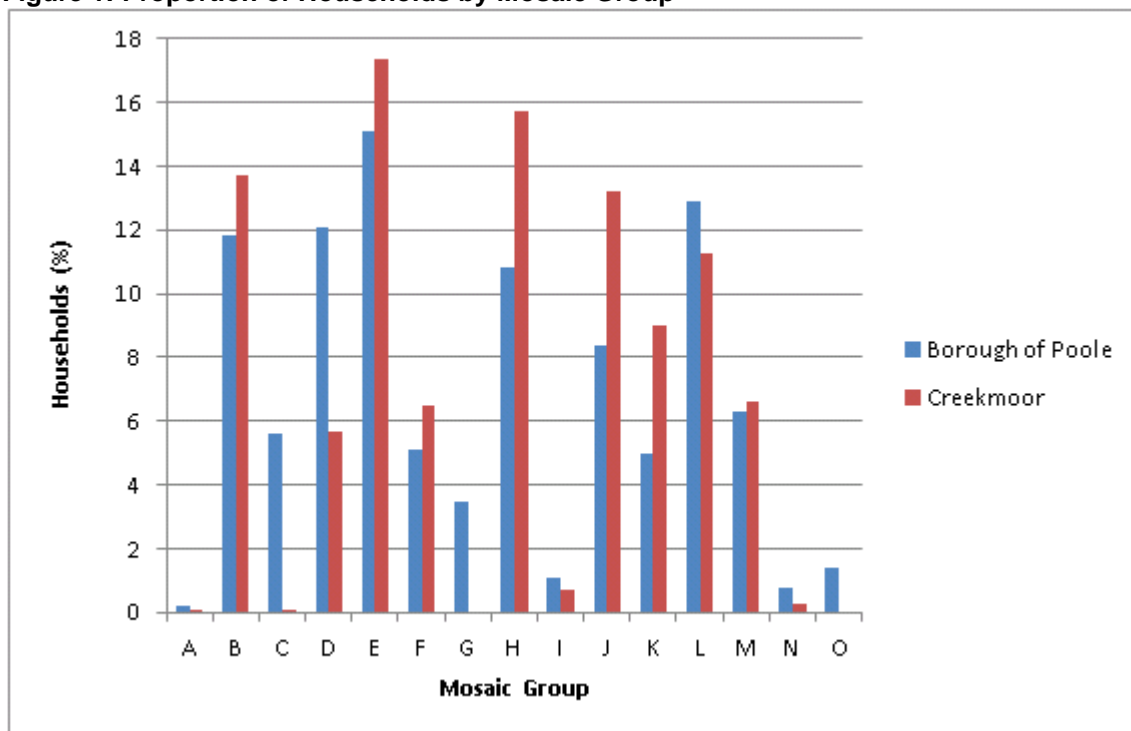

Mosaic is a socio-economic classification system used to classify households into 15 groups and 65 types. **A brief description of the Types and Groups and an introduction to Mosaic can be found [here](#).**

The three top Groups in this ward are E (17% of all households), followed by H (16%) and B (14%).

This suggests that the ward is somewhat varied in terms of socio-economic structure. Group E typifies middle income households while Group H typifies young professionals and Group B tends to be households with strong local roots. The three top Types are H35 (14%), I54 (10%) and E18 (9%).

The chart below shows the distribution of the Groups in the ward and also in the Borough.

Shaping Poole Survey

The [Shaping Poole Survey](#) asked for opinions about what it's like living in Poole, experiences of local public services and issues such as community safety. It updates the 2008 Place Survey to provide valuable, robust evidence to the Council and its partners (including the police, health, business and community representatives) about what is important to Poole people and where improvements are needed to shape service planning and policies.

The survey was posted to 5,500 households selected at random. 2,265 responses were received (a response rate of 41%). Overall the [headline results](#) of the survey paint a very positive picture of Poole, with:

Improved perceptions of all local public services

- Increased satisfaction with the Council, individual council services and improved perceptions of value for money
- Increased public confidence with community safety issues
- Improved community cohesion, but room for improvement
- Slight decrease in residents with good health

The Shaping Poole Survey results are for Safer Neighbourhood Area because the data is less reliable at ward level³. Creekmoor Ward is within the Creekmoor, Canford Heath East & West Safer Neighbourhood Area. Some key findings for this Safer Neighbourhood Area were:

- Significant increase compared to 2008 in the proportion of residents that agree the police and local public services are dealing with anti-social behaviour and crime in the local area (+11.6%, Poole: +11%)
- Significant decrease compared to 2008 in the proportion of residents that reported their health as being very good or good (-7.1%, Poole:-3%)

A [summary presentation](#) of the results is also available providing more detail
