

FAQs

Reopening of Sports Pavilions following Covid-19 outbreak

What facilities at pavilions are available to use?

There is access to toilets and communal areas within the pavilions but changing rooms and showers remain closed. Players should arrive changed and shower at home.

Are pavilions being cleaned before each booking?

Yes. All pavilions have an increased cleaning schedule to take place prior to every booking e.g. before a cricket game, and before another user attends. Key 'touch points' should be wiped down by users as they leave e.g. door handles, handrails and surfaces. All users should supply their own hand sanitiser and wipes.

Is there a restriction on the number of people using pavilions?

All users should adhere to UK Government social distancing guidelines of 2m where possible, except when this cannot be managed effectively and so 1m+ is permitted. We advise users to consider a 1 in and 1 out approach to small areas e.g. toilets, and a maximum of 4 people within any communal space.

Where can we store our personal belongings?

Bags and equipment can be stored in communal areas, but social distancing must be maintained.

What can users do to help?

All hirers should support NHS Test and Trace efforts by keeping a temporary record of all attendees for any activity and support NHS requests for data if needed.

Thank you for your cooperation.
